

Associate Professor Aaron Sprecher

Aaron Sprecher is Associate Professor at the Technion Israel Institute of Technology Faculty of Architecture and Town Planning. In parallel, he is co-founder and partner of Open Source Architecture, a collaborative research group that brings together international researchers in the fields of design, engineering, media research, history, and theory.

Aaron Sprecher taught at Syracuse University School of Architecture (2005-2008) before joining McGill University School of Architecture (2008-2017) where he founded the Laboratory for Integrated Prototyping and Hybrid Environments (McGill LIPHE). During his tenure at McGill University, Professor Sprecher was awarded a series of research grants including the prestigious Canada Foundation for Innovation grant and two Social Sciences and Humanities Research Council grants among others. His research and design work focuses on the synergy between information technologies, computational languages, and digital fabrication systems, examining the way in which technology informs and generates innovative approaches to design processes. Aaron Sprecher is co-curator and co-editor of the exhibition and catalogue *The Gen(H)ome Project* (MAK Center, Los Angeles, 2006) and *Evolutive Means* (Pratt Institute, New York, 2010). As Conference Co-chair of ACADIA 2010, he is co-editor of *LIFE in:formation: On Responsive Information and Variations in Architecture* (2010, New York: ACADIA) and the book *Architecture in Formation—On the Nature of Information in Digital Architecture* (2013, London: Routledge/Taylor and Francis). He is a member of the Editorial Board of the *Journal of Architectural Education* (JAE), and a founding member of the Confluence Institute in Lyon. Professor Sprecher was trained as an architect in Brussels, Jerusalem, Amsterdam, Paris, and Los Angeles. He is a licensed architect in Israel, and a member of the Royal Architectural Institute of Canada.
