

The Final Report seeks to assess those impacts of the research project that are directly related to this grant. Wherever possible, please use the grant awarded by the Fonds as your frame of reference when completing this report.

The purpose of the information collected through the Final Report and the accompanying survey is to:

- foster the dissemination and promotion of the activities and achievements of researchers funded by the Fonds;
- provide data for statistical analysis and program evaluation purposes;
- aid the Fonds in ensuring proper management of its grants and programs.

Under the Common General Rules, recipients of a Fonds grant are required to complete and submit a Final Report.

Department :			

PROJECT TITLE

Describe the title of the research project, for promotion purpose (must be written in French)

GRANT PERIOD AND AMOUNTS PAID

Type of grant	Years	Amounts paid*	Total
			_____ \$

* The amounts shown include sums paid by the Fonds for operating expenses and equipment.

COMPOSITION OF THE RESEARCH TEAM

Find below the list of all members of the team who have taken part in the project since the beginning of the grant. Where applicable, indicate the departure date of any members who have left and be sure to transmit the Canadian Common CV of each regular member.

Status	Last name and first name(s) Institution Department	PIN	Date of joining	Date of departure
<p>FOR INFORMATION ONLY</p>				

Information provided in the shaded areas will be treated as confidential.

SCOPE OF THE WORK

Describe the subject, research question(s), research problem and objectives of the research funded by the grant (maximum 10 lines).

--

Describe the main contributions of your work in terms of:

a) The advancement of knowledge (maximum 10 lines).

FOR INFORMATION ONLY

b) Impacts on other research disciplines (maximum 3 lines).

Discipline :	
Impact :	

SCOPE OF THE WORK (continued and end of section)

c) New avenues and opportunities for research (maximum 10 lines).

Please provide a short paragraph summarizing the importance of your work for your field of research and the current or anticipated economic, social, political, cultural, artistic or technological benefits. This summary may be used for dissemination to the general public (must be written in French) (maximum half a page).

FOR INFORMATION ONLY

Indicate the approximate amount used for the dissemination of the work and its results (include all means of dissemination such as pre-publication reports, presentations, translation, etc.).

\$ _____

Indicate the approximate amount used for international activities (include all means employed for international collaboration such as travel, communication costs, guest researcher fees, etc.).

\$ _____

Information provided in the shaded areas will be treated as confidential.

COLLABORATORS OUTSIDE QUEBEC

Please report any collaborations developed or maintained under the grant. Include all national (outside Quebec) and international academic collaborations.

Name of institution :

Department, centre,
administrative unit :

Name(s) of the
researcher(s) :

Sector :

Country :

Nature of the
collaboration :

FOR INFORMATION
ONLY

RESEARCH PARTNERS

Please report any partnerships developed through the funded research project. Include all partnerships with practice or business settings (public, parapublic or community organizations, private partnerships).

Name of the organization :

Department, centre, administrative unit :

Sector :

Country :

Financial contribution :

Monetary :

\$

In-kind :

\$

Role or nature of the contribution

FOR INFORMATION ONLY

TRAINING

Identify all students and postdoctoral fellows whose work is related to the funded project.

Student's name Title of research project	Level of study	Start of studies or postdoctoral fellowship month/year	End of fellowship or degree completion month/year	Funded by the grant yes/no
FOR INFORMATION ONLY				

DISSEMINATION, TRANSFER AND VALORIZATION ACTIVITIES

List the publications, presentations, works, patents and other dissemination, transfer and valorization activities that have arisen or will arise directly from the research funded by this grant. Please include the activities of team members and the students identified in the previous section.

Publications

Reference	Status Published, Accepted OR Submitted	Category	Nature of the readership
FOR INFORMATION ONLY			

DISSEMINATION, TRANSFER AND VALORIZATION ACTIVITIES (continued)

Presentations

Reference	Status (Published, Accepted OR Sub- mitted)	Category	Nature of the audience

Type of activity or transfer mechanism	
Known or anticipated benefits: :	
Comments :	

FOR INFORMATION ONLY

DISSEMINATION, TRANSFER AND VALORIZATION ACTIVITIES (continued)

Invention disclosures and patents (Intellectual Property)

Have your research results led to an invention disclosure?

Yes No

Disclosure year:

Name of the invention :

Do you anticipate filing any patent applications in relation to this project?

Yes No

If patents have already been filed or granted for this invention, indicate :

Subject of the patent	Filed OR Granted	Year of patent application	Year patent was granted	Country or continent
FOR INFORMATION ONLY				

DISSEMINATION, TRANSFER AND VALORIZATION ACTIVITIES (continued and end of section)

Other accomplishments or activities

Description	Year	Category
<p>FOR INFORMATION ONLY</p>		

CONDUCT OF THE PROJECT

List and rank up to three factors that contributed to the success of your work.

Factor 1 :

Factor 2 :

Factor 3 :

FOR INFORMATION ONLY

List and rank up to three factors that hindered the progress of your work.
