INSTRUCTIONS TO THE APPLICANT

You must arrange for your postdoc supervisor to complete a letter of acceptance using the electronic form.

Online transmission:

- Please fill in the name and contact information of your supervisor or co-supervisor in the section "Milieu de recherche" of your electronic form as soon as possible;
- Once the document is saved, click on the link to send an email to your supervisor. It will be generated by the system and contains all the information on how to proceed. It is strongly recommended to ensure that your supervisor has received the e-mail;
- Once the letter has been submitted by your supervisor, you will see the transmission date in "Your file";
- The reference letters and the letter of acceptance must be submitted **no later than October 1, 2015, at 4 p.m.**

INSTRUCTIONS TO THE SUPERVISOR AND CO-SUPERVISOR

You are requested to submit a letter of acceptance for the aforementioned applicant.

Please provide a letter by using the electronic form. Instructions on how to proceed are included in the solicitation email.

Online transmission:

- Once you have received the instructions by email, you may begin writing your letter;
- The supervisor's letter of acceptance must be submitted **no later than October 1, 2015, at 4 p.m.**;
- The letter will be automatically added to the applicant's file.

LETTER OF ACCEPTANCE (maximum two pages)

- A) Indicate the extent to which the applicant's research project fits in with your research activities.
- B) Indicate the type of supervision and the activities planned to foster the applicant's integration into the research environment.
- C) Show how the research environment will enrich the applicant's scientific experience and enhance his/her skills.
- D) Provide additional information which can help the evaluation committee to know your research environment.

A) Indicate the extent to which the applicant's research project fits in with your research activities.

B) Indicate the type of supervision and the activities planned to foster the applicant's integration into the research environment.

FOR INFORMATION ONLY

C) Show how the research environment will enrich the applicant's scientific experience and enhance his/her skills.

D) Provide additional information which can help the evaluation committee to know your research environment.
